Updates to the Initial Statement of Reasons

Amend 80067 (a)(6)

This subsection is amended to remove the section symbols (§), as nonsubstantive changes, and replace them with the spelled out word “section” for consistency and uniformity for the rest of the regulation section.

Alternatives Determination

The Commission determined that no alternative it considered or that was otherwise identified and brought to its attention would be more effective in carrying out the purpose for which the regulation is proposed, would be as effective and less burdensome to affected program completers than the adopted regulation, or would be more cost effective to affected program completers and equally effective in implementing the statutory policy or other provision of law.

The amendments adopted by the Commission are the only regulatory provisions identified by the Commission that accomplish the goal of ensuring that credential requirements accurately, effectively, and efficiently identify educators who have met high and rigorous certification standards. Except as set forth and discussed in the summary and responses to comments, no other alternatives were proposed or otherwise brought to the Commission’s attention.

Mandated Costs

These proposed regulations will not impose a mandate on local agencies or school districts.
